4700

## There's a new truck in town and it's every bit a Western Star.

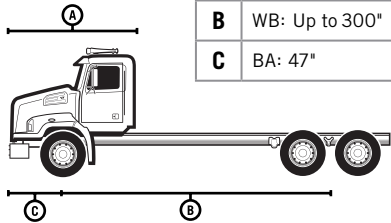

Why did we build it? Because we listened to you. The Western Star®4700 gives municipalities and contractors Western Star heritage and toughness in a truck that has the options to be custom built to your job. But what you see here is just the start. If there's anything you need you don't see, let your dealers know. They're listening, too.
